APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:
This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. A measuring device must be installed and measurements of water use kept. The State retains the right to regulate the use of the water granted herein at any and all times.
This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.
The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.
The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.
The total combined duty of water under Permits 45300, 45301, 45302 and 45303 shall not exceed 31.5 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but limited to 31.5 million gallons annually.

- Work must be prosecuted with reasonable diligence and be completed on or before May 22, 1988
- Proof of completion of work shall be filed before June 22, 1988
- Application of water to beneficial use shall be made on or before May 22, 1990
- Proof of the application of water to beneficial use shall be filed on or before June 22, 1990
- Map in support of proof of beneficial use shall be filed on or before.....
